<sup>1</sup> Because of the change in the fiscal year end the spring term 1972 is included in both the 1971-72 and 1972-73 fiscal year. The 1972-73 projections are as submitted on December 15, 1971. The 1971-72 actuals are as updated on March 1, 1972. For this reason the figures for the spring term do not correspond with those provided in Table 5.

<sup>1</sup> Enrolment statistics are based on net teaching service performed.  
Staff statistics include faculties of medicine.

<sup>2</sup> (a) Includes students ineligible for grant purposes.

(b) Except as noted below (see note (5)), enrolments shown are on a fall-term, on-campus basis.

<sup>3</sup> The B.I.U. (Basic Income Unit) is the unit of weighted enrolment on which formula operating grants are based. Weighting varies according to program of Study. See tables 20 and 21 for calculations relating to 1971-72.

<sup>4</sup> Staff figures for 1971-72 are based on estimated data submitted in October, 1971, and thus are subject to revision. F.T.E. of part-time is calculated by dividing salaries paid to part-time staff (including graduate-students) by the average salary for full-time teaching staff at each university.

<sup>5</sup> Enrolments shown for Guelph, Waterloo and Windsor, are on an annual equivalent full time basis (instead of fall term on-campus).

<sup>1</sup>In 1971-72 the provincially assisted universities (excepting Ryerson Polytechnical Institute) and the church-related institutions changed their fiscal year-end from June 30 to April 30. For the resulting 10-month fiscal period, they received 85% of the normal 12-month formula grant.

<sup>1</sup> Basic Operating Income is derived by multiplying the number of Basic Income Units by the value of the Basic Income Unit. (\$1,730 in 1971-72, \$1,765 in 1972-73).

<sup>2</sup> In 1971-72, the universities (excepting Ryerson Polytechnical Institute) changed their financial year-end from June 30 to April 30. For the resulting 10-month fiscal period they received 85% of the normal 12-month formula grant.

<sup>3</sup> Grants in respect of programs not covered by formula and other extra-formula items recommended by the Committee on University Affairs have been included under "Non-Formula Grants, Other" along with adjustments of prior years' grants.

<sup>4</sup> 1972-73 figures are based on enrolment projections supplied by the universities.

<sup>1</sup> The "K" Factor is designed to provide additional Basic Units on a graduated scale to colleges whose enrolments are below a viable level (4,000). It also provides additional support to those colleges (Cambrian, Confederation and Northern) which are required to provide service to remote areas.

<sup>2</sup> The 1972-73 figures are based on enrolment projections supplied by the colleges.

<sup>3</sup> The above figures do not include retraining. In the 1972-73 fiscal year, additional formula grants of approximately \$5.4 million will be made in respect of students referred to this program by the Province.

<sup>1</sup> Basic Operating Income is derived by multiplying the number of Basic Income Units by the value of the Basic Income Unit (\$1730 in 1971-72, \$1765 in 1972-73).

<sup>2</sup> Church-related institutions receive the greater of 50% formula grant and the 1966-67 federal grant allocation. The adjustment grant is to bring the operating grant up to the guaranteed level of the 1966-67 federal grant.

<sup>3</sup> In 1971-72 the church-related institutions changed their financial year-end from June 30 to April 30. For the resulting 10-month fiscal period they received 85% of the normal 12-month formula grant.

<sup>4</sup> 1972-73 figures are based on enrolment projections supplied by the universities.
